Minimum CPU – 400 mhz
Minimum Resolution – 1024 X 768

Computer Recommended Requirements

Recommended RAM Requirements – 512 or higher
Hard Disk Space – 70 megs or higher
Operating System – Windows XP SP2 or higher
Minimum CPU – 1 ghz or higher
Minimum Resolution – 1024X768

Server Requirements

.NET Framework Version – V 2.0 or higher
Hard Disk Space – 20 megs
Operating Version – Windows 2000 Server or later not including Windows 2003 Web Edition
RAID
RAM – 256 megs

Recommended Anti-virus/Anti-spyware programs include:

- AVG products
- Avast
- Lavasoft Products
- Spyware Doctor
- Norton (2006 versions or later)
- McAfee (2006 versions or later)

There are other good ones out there. We have found that the older versions of Norton and McAfee interfere with the Synchronization technology.
